

# ResponseCard® AnyWhere™

No Computer? No Projector? No Problem!

## A Response System for Any Environment

Don't have a projector, computer, software, or time for advanced preparation? With ResponseCard AnyWhere - a handheld stand alone receiver - every meeting facilitator or training instructor can take advantage of the benefits of interactive polling no matter where their agenda guides them and at a fraction of the investment costs.

ResponseCard AnyWhere allows group meeting facilitators the freedom to gather critical feedback, assess learning and/or gain consensus anywhere at any time - accommodating a wide range of meeting styles.

### Ideal for:

- Traditional meeting & learning environments not equipped with projectors and computers
- Senior leadership and administrative meetings
- Staff meetings
- Alternate meeting environments including manufacturing floors, medical internship rounds, and construction sites
- Focus groups
- Conference break-out sessions
- Informal group settings

### As Simple as a Press of a Button

1. Ask a question.
2. Press Menu/OK on the ResponseCard AnyWhere receiver to open polling.
3. Participants respond via ResponseCard RF or RF LCD keypads.
4. Results displayed on ResponseCard AnyWhere's LCD screen.

### Use to:

- Gauge participant understanding
- Gather critical participant information
- Generate honest, spontaneous and anonymous opinions
- Gain consensus and assess learning
- Increase attendee interaction and engagement

Should you choose, responses can be uploaded onto your PC or laptop computer via a USB cable (included) to merge responses to a participant list and generate reports for analysis using ResponseCard AnyWhere Desktop reporting software. Assess learning/gather critical feedback anywhere at any time.

No computer necessary • No projector needed • No special setup required • You don't even need electrical outlets!

### Easy Implementation:

- Easy implementation and use
- Lower investment costs (no additional technology required)
- Lower professional development demands
- No formal presentation preparation required

### Technical Specs:

- Long Battery Life - 2 AAA Batteries - Approx. 5,000 minutes of Active Polling
- 82 Available Channels
- Up to 250 ResponseCards supported per ResponseCard AnyWhere
- Simple Button Configuration - User Friendly

Simply present a question and open polling. It's as simple as a press of a button.
