AnyWhere™

Poll in ANY PC Application

We understand that not everyone is using PowerPoint® during presentations. Some speakers use Word® documents, Excel® spreadsheets, PDF content, multimedia files and web pages to relay vital information. It's a good thing that TurningPoint AnyWhere can poll in ANY PC application using a floating toolbar and still generate reports for further analysis!

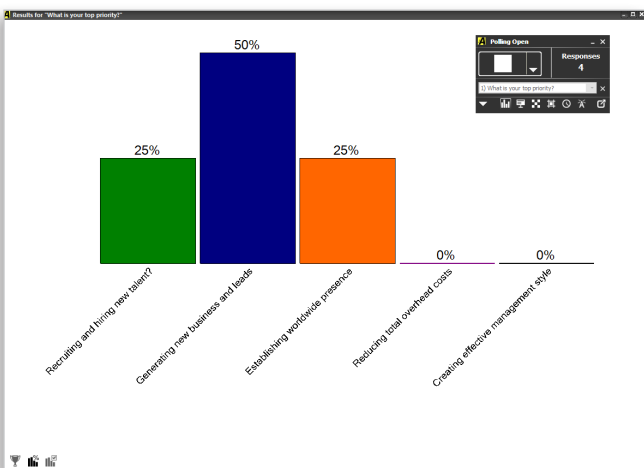

Key Features Include:

- Floating Toolbar - place it anywhere on your screen, poll and collect data instantly
- Dynamic Charting - will appear in new window and update in real-time with results
- Reporting Function - detailed reports in programs outside of Office suite
- Question List - create, load and edit question list for advanced polling preparation
- Custom Questions - create questions on-the-fly and insert into session as needed
- Participant List - track individual results, gauge participant assessment instantly
- Screen Shot Report - captures questions, results and screen shot of each question
- Real-Time Registration - using participant list, have audience register devices
- Anonymous Polling - start polling anonymously anytime under main menu
- Countdown Timer - countdown to close polling, add, subtract or pause time instantly
- Response/Non Response Grid - see who has and who hasn't responded in real-time
- No Software Installation Required - easily launch from a flash drive or CD, no hassle
- Competition and Team Functions - add fun and excitement to presentations
