

**TurningPoint**

ResponseCard® IR is optimized for the small and medium classroom, as well as boardroom and focus group

environments. They are Light and compact enough for teachers, consultants, presenters, and trainers to carry from room to room or with them when they travel. ResponseCards and Receiver fit into a custom carry case.

TurningPoint® can achieve two-way verification for the ResponseCard systems via a participant grid displayed on the screen. As each participant enters a new response or changes a previous response their keypad ID block will acknowledge the response by changing its appearance.

## Specifications:

### Enclosure

- Lightweight, compact, grey "credit card" format.
- Dimensions: 8.4cm L x 5.3cm W x 0.8cm H.
